New Fel-Pro® Performance Full Gasket Sets Include All of the Brand's Premium, Race-Proven Technologies Needed to Seal Popular High-Output Engines

Southfield, Michigan...Fel-Pro, the premier brand of gaskets for high performance engines, has introduced premium complete engine sealing sets for popular racing and street performance powerplants.

Fel-Pro Gaskets, "The Gaskets Professionals Trust™," are manufactured and marketed by Federal-Mogul Corporation (OTCBB: FDMLQ).

Premium Fel-Pro Performance Full Sets include the latest race-proven engine sealing technologies, including Fel-Pro PermaTorqueMLS® multi-layer-steel head gaskets, rigid core molded rubber one-piece valve cover and oil pan gaskets, steel-core intake manifold gaskets, and high-temperature crankshaft seals.

"Performance engine builders understand that sealing technology plays an absolutely vital role in engine performance and reliability. Fel-Pro Performance Full Sets eliminate the chances of a sealing-related issue by applying our latest and best application-specific technologies to each engine platform," said Ron Rotunno, performance gaskets marketing manager, Federal-Mogul.

The new Full Sets are now available for small-block Chevrolet (1959-97), big-block Chevrolet (1965-90) and small-block Ford (1962-82) V8 performance engines. Fel-Pro gaskets and sets are available through thousands of automotive and performance parts dealers across North America.

The Fel-Pro PermaTorqueMLS head gaskets included in each Full Set feature the same technology used by leading NASCAR Nextel Cup, Busch and Craftsman Truck Series engine builders. Each gasket features up to five layers of full-hard stainless steel to maintain shape and withstand scrubbing and crushing caused by casting motion. These gaskets also feature strategically placed sealing beads that are concentric to the cylinder bores to eliminate leak paths; some applications feature a welded "stopper" layer that provides a superior primary combustion seal. A proprietary rubber compound seals surface finishes up to 60 Ra.

Fel-Pro performance one-piece molded-rubber valve cover and oil pan gaskets provide an exact fit, are easier to install and include compression limiters to prevent overtightening. Their advanced silicone rubber formulations are ideally suited to high-temperature applications, while the gaskets' rigid carrier design provides exceptional strength for high-vacuum engines. Multiple sealing beads allow each gasket to seal a wide variety of both OEM and aftermarket castings.

Fel-Pro Performance steel core intake gaskets are also engineered for high-vacuum applications, where migration of conventional gaskets into the intake port could lead to power loss.

These gaskets feature a steel core for improved lateral stability and an anti-stick coating to speed gasket removal and clean-up.

For more information regarding new full performance gasket sets from Fel-Pro, please contact your Fel-Pro supplier or write to: **Fel-Pro Marketing, Federal-Mogul Corp., 26555 Northwestern Highway, Southfield, MI 48033**. Fel-Pro product information is available online at: www.federal-mogul.com.

About Federal-Mogul

Federal-Mogul is a leading global automotive supplier offering a comprehensive portfolio of quality products and trusted brands. Headquartered in Southfield, Michigan, the Company employs more than 45,000 people in 31 countries.

The Company's principal customers include many of the world's foremost original equipment manufacturers of vehicles and industrial products, and aftermarket retailers and wholesalers.

Federal-Mogul's products are sold under a variety of power brands, including, but not limited to, AE[®] engine products, ANCO[®] wipers, Champion[®] spark plugs and wipers, Fel-Pro[®] gaskets, Ferodo[®] brake pads, Glyco[®] bearings, Goetze[®] piston rings, MOOG[®] chassis products, National[®] wheel-end components, Nüral[®] pistons, Payen[®] gaskets, Sealed Power[®] engine products and Wagner[®] lighting and brake products. For more information on Federal-Mogul, visit the company's Web site at <http://www.federal-mogul.com>.
